## A

### Abstracts

Abstracts. 1988;93:85-8; 174-9; 358-9; 448-50; 528-30

### Acrylic resins

Bonding orthodontic acrylic resin to enamel (Eversoll and Moore). 1988;93:477-85

### Adhesives

The effect of different methods of bracket removal on the amount of residual adhesive (Oliver). 1988;93:196-200  
Long-term cytotoxicity of orthodontic direct-bonding adhesives (Tell et al). 1988;93:419-22  
Protection by latex or vinyl gloves against cytotoxicity of direct bonding adhesives (Afsahi et al). 1988;93:47-50

### Age factors

The effect of age on tooth movement and mineral density in the alveolar tissues of the rat (Bridges et al). 1988;93:245-50

### Airway obstruction

The relationship between patency of the maxillary sinus and craniofacial growth in the rabbit (Kraut and Kronman). 1988;93:467-76

### Alloys

Nitinol arch wire in a simulated oral environment: changes in mechanical properties (Harris et al). 1988;93:508-13

### American Association of Orthodontists

Preliminary program of eighty-eighth annual session, May 1-4, 1988. 1988;93:153-68

### American Board of Orthodontics

American Board of Orthodontics. 1988;93:261-4; 352-3; 437; 520-5

### Andresen therapy

The effects of three methods of orthodontic appliance therapy on some commonly used cephalometric angular variables (Knight). 1988;93:237-44

### Anesthesia, dental

Effect of topical cheek surface anesthesia on isometric contractions of the human masseter muscle (Christensen and Robbins). 1988;93:99-102

### Angle, Anna Hopkins

Anna Hopkins Angle—"First Lady" of orthodontics (Nieberg). 1988;93:514-7 (Hist. vig.)

### Animal models; see Models, biological

### Appointments and schedules

Increasing patient compliance with appointment keeping (Gross et al). 1988;93:259-60 (Special article)

### Arch wire; see Orthodontic wires

## B

### Begg technique

A cephalometric appraisal of edgewise Class II nonextraction treatment with extraoral force (Cangialosi et al). 1988;93:315-24

January, pp. 1-90; February, pp. 91-182; March, pp. 183-272; April, pp. 273-362; May, pp. 363-452; June, pp. 453-544.

The effects of three methods of orthodontic appliance therapy on some commonly used cephalometric angular variables (Knight). 1988;93:237-44

### Bite force

The effect of load duration on long-term recovery of the eruptive function in the rat incisor (Steigman et al). 1988;93:310-4

### Bite registration; see Jaw relation record

### Bonding, dental

Bonding and debonding brackets to porcelain and gold (Andreasen and Stieg). 1988;93:341-5 (Clin. corner)

Bonding orthodontic acrylic resin to enamel (Eversoll and Moore). 1988;93:477-85

A comparison of shear bond strengths of metal and ceramic brackets (Gwinnett). 1988;93:346-8 (Clin. corner)

The effect of different methods of bracket removal on the amount of residual adhesive (Oliver). 1988;93:196-200

The effect of a fluoride program on white spot formation during orthodontic treatment (Geiger et al). 1988;93:29-37

A laboratory evaluation of the tensile bond strength of some orthodontic bonding resins to enamel (Delpont and Grobler). 1988;93:133-7

Long-term cytotoxicity of orthodontic direct-bonding adhesives (Tell et al). 1988;93:419-22

A precise and time-saving method of setting up an indirectly bonded retainer (Bantleon and Droschl). 1988;93:78-82 (Clin. corner)

### Bonding adhesives; see Adhesives

### Bone and bones, physiology

Cranio-mandibular bone density in the primate as assessed by computed tomography (Miller et al). 1988;93:117-25

The effect of age on tooth movement and mineral density in the alveolar tissues of the rat (Bridges et al). 1988;93:245-50

### Bone development

Patterns of vertical growth in the face (Nanda). 1988;93:103-16

The longitudinal effects of growth on the Wits appraisal (Sherman et al). 1988;93:429-36

The relationship between patency of the maxillary sinus and craniofacial growth in the rabbit (Kraut and Kronman). 1988;93:467-76

Temporomandibular joint adaptations following maxillary osteotomy in adolescent monkeys (Nanda et al). 1988;93:224-31

### Bone loss, periodontal; see Bone resorption

### Bone resorption

The effect of orthodontic treatment on periodontal bone support in patients with advanced loss of marginal periodontium (Årtun and Urbye). 1988;93:143-8

### Bottle feeding

Bottle-feeding and malocclusion: Is there an association? (Meyers and Hertzberg). 1988;93:149-52

### Braces; see Orthodontic appliances

### Brackets; see Orthodontic appliances

### Burns, chemical

- Lip burn from band seater (Moore and Igel). 1988;93:183-5 (Clin. corner)

C

**Canine tooth**

- Substitution of a transposed premolar for a congenitally absent lateral incisor (Nestel and Walsh). 1988;93:395-9 (Case rep.)

**Case reports**

- Case reports. 1988;93:92-8; 388-94; 395-9; 453-9

**Cements**

- A comparison between zinc phosphate and glass ionomer cement in orthodontics (Maijer and Smith). 1988;93:273-9  
Glass ionomer cements in orthodontics—an update (Mizrahi). 1988;93:505-7

**Cephalometry**

- A cephalometric appraisal of edgewise Class II nonextraction treatment with extraoral force (Cangialosi et al). 1988;93:315-24  
The effects of three methods of orthodontic appliance therapy on some commonly used cephalometric angular variables (Knight). 1988;93:237-44  
Exposure reduction in cephalometric radiology: a comprehensive approach (Tyndall et al). 1988;93:400-12  
Patterns of vertical growth in the face (Nanda). 1988;93:103-16  
A summary five-factor cephalometric analysis based on natural head posture and the true horizontal (Cooke and Wei). 1988;93:213-23

**Ceramics**

- A comparison of shear bond strengths of metal and ceramic brackets (Gwinnett). 1988;93:346-8 (Clin. corner)

**Cervical traction; see Extraoral traction appliances**

**Chemical burns; see Burns, chemical**

**Chin, surgery**

- Advancement genioplasty: an important part of combination surgery in black American patients (Connor and Moshiri). 1988;93:92-8 (Case rep.)

**Class I malocclusion; see Malocclusion, Angle Class I**

**Class II malocclusion; see Malocclusion, Angle Class II**

**Class III malocclusion; see Malocclusion, Angle Class III**
